PROFILE SUMMARY

- 4.5 years of strong product development experience in Java. Highly skilled in coding, testing, documentation, etc across the whole development lifecycle.
- Hands-on experience in Collection Framework, Microservices, OOPS Concepts, Multithreading, MySQL.
- Hands-on experience in Data Structures and Algorithms.
- Excellent debugging skills and can handle complex projects.
- Good problem-solving skills and analytical skills such as code analysis, impact analysis.
- Self-learner and able to start work on any new technology quickly and efficiently.

PROFESSIONAL EXPERIENCE

SENIOR SOFTWARE ENGINEER

UKG (Ultimate Kronos group), Noida | Oct 2020 – Present (1 year and 4 months)

JAVA DEVELOPER

Tata Consultancy Services | Aug 2017 – Oct 2020 (3 years and 2 months)

REMOTE INTERN

Tata Consultancy Services | SDLC & CakePHP | Feb 2017 – Mar 2017 (2 Months)

INTERN

Metacube Software Pvt. Ltd., Jaipur | CakePHP | June 2016 – July 2016 (2 Months)

INTERN

Metacube Software Pvt. Ltd., Jaipur | JAVA, JSP & Servlet | June 2015 – July 2015 (2 Months)

TECHNICAL SKILLS

LANGUAGES

JAVA | HTML & CSS | JavaScript

FRAMEWORKS

Spring | Spring Boot

DATABASE

MySQL | Oracle

VERSION CONTROL & WEB AUTOMATION

GIT | SVN | Selenium | WinSCP | Putty

TOOLS AND IDE

Eclipse | IntelliJ IDEA | Tortoise SVN | SourceTree | Jira | Confluence | VS Code

ORGANIZATIONAL EXPERIENCE

1. WFC (WORKFORCE CENTRAL) Suite

- Recently worked on a utility called QTSO in a time of **crisis** where there were strict time constraints and the need was to deliver product to customers quickly and efficiently. Optimized performance of the utility, made the utility more stable, added many new functionalities, identified and fixed existing bugs to help customers for punching data in offline mode.
- Currently working in the Platform team. This team's responsibility is to provide a platform so that other teams can built on it. We make all frameworks related updates, do all upgrades and also handle a vast functionality of the whole suite.
- WFC (WorkForce Central) Suite is a suite that contains multiple tools which are used for workforce management regardless of the industry. It can manage schedules, track time and attendance, can be used to track leaves and productivity.

MY RESPONSIBILITIES:

- To work as a senior developer, major tasks are to make the product more customer friendly and add new functionalities in the system. And, to mentor the new joiners and junior developers to improve their efficiency.
- To work on major patches that are delivered to the customers if they are facing any issues in the system.
- To fix defects and issues that are reported by the customer by effective communication with the customer and understanding the problems that they were facing.

- To do various optimizations in the current system to improve performance and to actively take part in the design cycle and create HLD, LLD and provide estimates as per the project requirements.
- To write effective unit tests so that the defects are identified early in the cycle.

2. CVS RXCONNECT

- Worked at **CVS RxConnect** as a Java Developer. Helped the client to generate more revenue, cut cost and stay updated with the current standards by delivering complex components like Intake Engine, RVO, 90 Day Program, Script Standards.
- CVS is a retail pharmacy in the USA. CVS pharmacies use the application **RxConnect** to dispense medication to the customers. Using **RxConnect Application** we are improving the accuracy and efficiency of work from taking a prescription to dispensing the drug to the customer and also, we are automating the work. **RxConnect Application** is a java-based application.

MY RESPONSIBILITIES:

- Always been a part of the most complex components in every release I was put in.
- Trained to handle component deliveries where zero-defect delivery is must in production and the defects should be minimum in the development phase.
- Fixed production defects in strict time constraints. Also, played a crucial part in the architectural upgrade of the project where the existing release-based delivery model was changed into a more robust microservices approach to make it easily deployable in production by delivering Intake Engine project.

ACHIEVEMENTS

1. Got **Star of the Month Award** in June 2020.
2. Got **Beyond Excellence Award** in April 2020 for managing the most complex project.
3. Got **Star of the Quarter Award** in the 2nd Quarter of 2019.
4. Got **LIREL Award** in TCS ILP.
5. Awarded with **Best Innovation Project** in TCS ILP.
6. Appreciated by College for making Quiz Portal.
7. Got **362 rank** in TCS Codevita V Round 1.
8. Participated in Smart India Hackathon 2017.

OTHER PROJECTS (Academic/Internship)

1. Book Next Hand (Internship | Metacube Software Pvt. Ltd., Jaipur)

Book Next Hand is a system which is developed to help users to give and borrow books on rent.

Tech Stack: CakePHP, JavaScript, HTML & CSS, SQLDB

Development Time: 8 Weeks

2. Online Bill Management System (Internship | Metacube Software Pvt. Ltd., Jaipur)

It is an inventory management application developed to help shopkeepers to make their daily bills fast and easy.

Tech Stack: JAVA, JSP & Servlet, SQLDB

Development Time: 6 Weeks

EDUCATION QUALIFICATION

B. Tech (Computer Science and Engineering)

73%|JMIT, Radaur|Kurukshetra University|2013-2017

Matriculation

87.4%|S.D. Adarsh Public School, Karnal|CBSE|2011

Senior Secondary

84.8%|S.D. Adarsh Public School, Karnal|CBSE|2013

OTHER SKILLS/INTERESTS

1. Excellent knowledge about Web Development. Have developed many web-based projects for college and as self-interest. Have sounding knowledge of concepts like SEO, Google Analytics, AdSense, AdWords etc.
2. Can write automation scripts using Selenium. Have developed automation scripts to post on various WordPress websites.
3. Have worked and made projects on various PAAS, SAAS platforms that offer free developer accounts like Heroku, Salesforce and AWS.
